NEW ADDITIONS FOR FALL 2018

Reactive texture through print

Studio Prints collections are a contemporary take on traditional studio pottery. Raku, a range in the Studio Prints collection is inspired by the traditional glazing process known as Raku firing, which creates expressive and exciting results. Manufactured in the UK, Raku inspired prints are achieved with Churchill’s innovative print process. The print is positioned directly under the glaze, creating a protective layer over the decoration. Emulating an artisan glaze finish, Studio Prints Raku has all the durability and technical reassurance required for the hospitality environment.

Many of our products provide ideal choices for presenting a range of creative dishes, inspired by the increasingly popular sociable sharing story. Sharing platters and small plate combinations in a blend of on-trend colours, textures and versatile shapes create exciting tabletop additions.

As dining out becomes more casual, consumers embrace the sociable sharing culture of Spanish tapas, and the trend continues to evolve as more and more cuisines adopt the small plate ethos.
As diners strive to live healthier lifestyles we see the trend for clean eating becoming more relevant to all hospitality sectors and markets. Stylish new white shapes are ideal for showcasing colourful superfoods, whilst the new rustic Stonecast bowls are perfect for healthy breakfast options.

Animal welfare is promoted and we increasingly see diners opt for plant based proteins and meat free days. Transparency is also key, as consumers want to know exactly what is in their food and how far it has travelled to their plates.
In the printing of this brochure, every effort has been made to ensure perfect reproduction of product colours, but due to printing limitations, they may not be an exact match to the actual product.
