

Care In Use

TEA INFUSER

Churchill's stainless steel tea filter is designed to work with specific ceramic beverage pots, the fine mesh finish creates the ideal, leaf free infusion.

Made with top quality 18/10 stainless steel, the infuser is dishwasher safe and designed to meet the demands of a busy hospitality environment. Handling with care and following the guidelines below will help to prolong the life of your product.

USES

- Hand washing is recommended. If using a dishwasher, follow manufacturers instructions. Dishwasher Settings, use of salt and water softener should be appropriate for water hardness in your area.
- Rinse filter immediately after use to remove tea leaves, then wash as soon as possible after use.
- Remove and dry immediately after the end of the dishwasher programme (avoid rinse and hold programmes as soaking can be damaging).
- Store in a dry environment.
- Use in suitable Teapot.

MISUSES

- Do not leave to soak.
- No not use hard or improper detergents or corrosive liquids, such as bleach or vinegar.
- Sometimes leaves become bound in the filter, do not use hard brushes, such as cleaning wire to remove.
- Water marks and food residues can be indicative of improper care and use.
- Not suitable for use in oven or microwave.
