

Care In Use

CHURCHILL®

GLASS TABLEWARE

Churchill's exclusive range of glass tableware is designed in-house to perfectly complement our vast portfolio of ceramic, wood, melamine and cutlery products.

Whilst we have designed the product to be as durable as possible, handling with due care is essential. Following the guidelines below will help to prolong the life of your product.

USES

- For best results and prolonged life we recommend hand washing using a non-abrasive pad. If using a dishwasher, please follow manufacturer's instructions.
- Glass tableware is suitable for use in chilled and ambient temperatures.
- Glass tableware is suitable for hot and cold food use
- Wash glass tableware as soon after use as possible after use.
- Use a plastic spatula to remove leftovers as metal may mark or scratch the piece.
- Wash before first use.

MISUSES

- Immediately remove chipped or damaged glass tableware from use.
- Not suitable for oven use.
- Do not expose glass tableware to direct flames or excessive heat, including heat lamps.
- Avoid the use of harsh chemicals and the use of harsh or abrasive scouring products.
- If using a dishwasher, space the items properly and do not overfill.
- If using a dishwasher, keep china, glass and metal items separate. This will reduce the possibility of chipping, breakage and marking.
- Allow items to air-dry before stacking.
- Do not over-stack
