NEWS

Learn about some of the latest news and investments at Churchill here...

Churchill are excited to announce the launch of a new premium cutlery collection in partnership with COMAS.

The collections showcase innovative shapes and designs. The new introductions offer PVD coatings, fast becoming a popular finish in the hospitality sector and specialist steak knives, a frequent request from the marketplace.

COMAS are experts in cutlery design and manufacture. All collections are designed in-house at their head office based in Barcelona, Spain.

Established in 1991, COMAS brand values align with Churchill, making the distribution partnership a perfect fit. We are the master distributor for COMAS in the UK and Ireland.

We will see further additions to our Spring launch later this year.

ENVISAGE® COLLECTION

We launched our Envisage collection in Summer 2024 and since then we have continued to add new shapes and designs.

Spring 2025 delivers the story behind Envisage. The brand and product collection are the realisation of visionary thinking and technical developments in manufacturing to build a better, more sustainable future.

Most ceramics are manufactured with two firings in the making process. Envisage is manufactured with one firing in the making process, reducing the overall energy consumption.

The research and technical development supporting this project ensure we did not compromise on shape, design and technical performance that is expected from a Churchill product.

New to the collection this year, Envisage Cascade, a deep sapphire blue glaze featuring a reactive radial print.

INKED — COLLECTION —

Inked is the new brand name for our collection of designs that allow you Creative Expression, from bold to understated, create your look.

Inked collections are developed in-house by our expert design team and manufactured in the UK with the latest in Digital Print technology.

Elements was our first collection, launched in Autumn 2023, since then the portfolio has grown, now with 4 designs and a fifth modern design 'Lyra' being launched this Spring.

Technical Performance

Design Engineered to Last

Our tableware is materially and design engineered to last in a professional setting, from our unique clay recipe and controlled kiln environment to durable shape design and long-lasting finishes.

Raw Materials

Our raw materials are responsibly sourced and carefully selected to create a strong, long-lasting product.

Engineered Shapes

Churchill products are engineered for professional use, with reinforced impact areas and reduced weight where possible.

Vitrification

Vitrification is essential for professional tableware, it's the process of altering the particle structure of our ceramics to create a dense and watertight body, thereby creating a stronger and more food safe ceramic product.

Glazing

Churchill ceramics are finished in a durable, scratch resistant glaze that has been specially formulated for hospitality use.

Smoke

Contemporary & Dramatic

Contemporary but refined, Smoke provides the perfect blend of colour and white space. The minimalist wisp design is showcased on striking feature piece shapes, creating a dramatic canvas for premium cuisines.

New for Spring 2025, the Smoke design is available on premium Ambience shapes in the bold black colourway. Ambience is a collection of finer, lighter Alchemy plates, elegantly refined and perfect for fine dining settings.

ENVISAGE® COLLECTION

Cascade

Radial Design

Envisage is an exploration of shape design, achieved through pioneering manufacturing processes developed as part of Churchill's ethos to build a better future. A once fired collection, eliminating the need for a second firing, to minimise energy usage, without compromising on quality and durability.

Envisage Cascade is a captivating pattern of cascading lines, radiating from a central point. Featured on a deep Sapphire Blue reactive glaze, applied front and back to organic shapes, the multi tonal glaze means that each piece is unique.

INKED

— COLLECTION —

Lyra

Celestial Forms

Taking its name from the Lyra constellation, the collection features a distinct starburst design. Framed by its cosmic pattern, Lyra allows for creative freedom combining decorative pattern with white space. This linear design, inspired by celestial forms, captures the essence of starlight, giving it a visually symmetrical appeal.

Forming part of the exciting new Inked collection, Lyra is available across wall plates, tasting trays and organic bowls, all available in the Blue and Pink colourways.

Harvest Flare

Rustic Elegance, Organic Flare

Staying true to the original Harvest collection, Harvest Flare brings a captivating, rustic charm with its organic worn-effect pattern. Retaining the distinctive hand-finished edge band and rich glaze colours with the addition of the border design, Harvest Flare is a versatile choice, bringing warmth and earthiness to any table palette.

Launching in Spring 2025, Harvest Flare will be available in Natural and Linen. Pieces include core rounds and contemporary walled and oblong plates. In-glaze decoration ensures industrial durability, making Harvest Flare perfect for busy kitchens.
