Technical Performance

Design Engineered to Last

Our tableware is materially and design engineered to last in a professional setting, from our unique clay recipe and controlled kiln environment to durable shape design and long-lasting finishes.

Raw Materials

Our raw materials are responsibly sourced and carefully selected to create a strong, long-lasting product.

Engineered Shapes

Churchill products are engineered for professional use, with reinforced impact areas and reduced weight where possible.

Vitrification

Vitrification is essential for professional tableware, it's the process of altering the particle structure of our ceramics to create a dense and watertight body, thereby creating a stronger and more food safe ceramic product.

Glazing

Churchill ceramics are finished in a durable, scratch resistant glaze that has been specially formulated for hospitality use.

Viana

Traditional Charm of Patio Tiles

The distinctive Viana embossment emulates the timeless and historical charm often seen in traditional patio tiles throughout Córdoba, Spain. Featured across an extensive range of tableware shapes and beverage items, Viana combines the essence of intricate artistry with functional design, adding an elevated and refined touch to modern dining experiences.

Summer 2025 introduces the textured embossment across classic white shapes and accent pieces, including core dinner plates, rimmed bowls and an array of beverage items, ideal for banquet and restaurant dining.

Blends

Elegance in Every Sip

The Blends collection is inspired by the art of combining coffee styles with the perfect cup size, carefully crafted to elevate every drinking experience. Drawing inspiration from the elegant, natural form of a tulip, the shape features a softly flared rim that tapers to the base, designed to amplify the beverage aromas.

Summer 2025 introduces six sizes of cups, available across three versatile colours including Paprika, Grey and White.
