ENVISAGE® COLLECTION

Envisage the Future of Dining

The Envisage Collection unifies visionary thinking, adaptability and an innovative spirit, bringing together all of Churchill's once fired pieces into one forward looking range.

Why Once Fired?

Most tableware, particularly high performance ceramics, is traditionally fired twice. At Churchill, our once fired process reduces the energy required to produce each piece, helping to minimise our environmental impact. We began once firing cups and small bowls in the 1980s and over the decades, we've continually refined the technique, advancing it to accommodate larger items and the addition of decorative colour, without compromising on quality or performance.

Look for this logo  to signify a once fired piece.

Technical Performance

Design Engineered to Last

Our tableware is materially and design engineered to last in a professional setting, from our unique clay recipe and controlled kiln environment to durable shape design and long-lasting finishes.

Raw Materials

Our raw materials are responsibly sourced and carefully selected to create a strong, long-lasting product.

Engineered Shapes

Churchill products are engineered for professional use, with reinforced impact areas and reduced weight where possible.

Vitrification

Vitrification is essential for professional tableware, it's the process of altering the particle structure of our ceramics to create a dense and watertight body, thereby creating a stronger and more food safe ceramic product.

Glazing

Churchill ceramics are finished in a durable, scratch resistant glaze that has been specially formulated for hospitality use.

Lumé

Radial Brilliance

The Inked Lumé design evokes an energetic burst of radial light, adding brilliance to dynamic tabletops. Transforming every meal into an experience, Lumé brings drama and a sense of artistry to the table.

Available in two striking colourways, a dramatic black/blue and a softer natural tone, Lumé provides the perfect canvas for creative food presentation. Its bold pattern also lends itself to mixing and matching with other designs from the Inked Collection, allowing you to create tabletops that are either strikingly dramatic or elegantly subtle.

Lyra

Celestial Forms

This celestial inspired Inked design takes its name from the Lyra constellation. With a balance of white space and colour, the linear pattern radiates from a central point, creating a dynamic focal point on the plate.

New for Autumn 2025 are the organic Opal oblongs and bowls, available in both Lyra Pink and Blue colourways, perfect pieces to inspire imaginative plating.
