# PERFORMANCE DELIVERED

## 10 REASONS WHY A CHURCHILL PLATE IS MORE THAN JUST A PLATE

WE BLEND CENTURIES OF EXPERIENCE WITH CUTTING EDGE TECHNOLOGY AND DESIGN INNOVATION TO PRODUCE ONE OF THE STRONGEST CERAMIC BODIES IN THE WORLD\*.

Manufactured in the UK, Churchill's tableware is precisely engineered to perform to the demands of the hospitality environment. Every step in the process is practised and refined. From the sourcing of raw materials and unique formulation of the clay body, to shape engineering

and numerous quality checks ensuring that Churchill products work as hard as you do. Top industry chefs choose Churchill over other brands due to the performance, expertise and design of our ceramics adding value to their hospitality operations.

\* Based on MOR

### PERFORMANCE MATERIALS

Our unique clay recipe is essential in creating a strong and durable product for the hospitality industry. Our raw materials are selected to deliver the optimum balance of strength and whiteness.

### ENGINEERED SHAPE & FORM

Every piece of Churchill's ceramic is designed with performance in mind. Through expert shape engineering, we reinforce strength and durability while continual investment in technology guarantees functionality and consistent quality.

### VITRIFICATION & FIRING

100% of Churchill's ceramics are vitrified which is essential to the hospitality industry. Through the process of vitrification, the particle structure of our ceramic body becomes strong, dense and watertight.

### GLAZING

Our glaze is hard wearing and designed specifically for the hospitality environment. The durability is a combination of the glaze recipe, the firing temperature and substrate. Our Eco Glaze is specially formulated to be re-usable, minimising our impact on the environment.

### DURABLE DECORATION

At Churchill we innovate with colour without compromising on durability. Our decorating techniques plus the colour and glaze materials we select, create a vibrancy that lasts.

## Envisage the FUTURE OF DINING

The Envisage Collection unifies visionary thinking, adaptability, and an innovative spirit, bringing together all of Churchill's once-fired pieces into one forward-looking range. Born from a pioneering manufacturing process first introduced by Churchill in the 1980s and continually refined over decades, Envisage reflects our enduring commitment to shaping a more sustainable future. Through bold shape design and thoughtful patterns, the collection is both an exploration of aesthetics and a testament to responsible innovation.

### Why Once Fired?

Most tableware, particularly high-performance ceramics, is traditionally fired twice. At Churchill, our once-fired process significantly reduces the energy required to produce each piece, helping to minimise our environmental impact. We began once firing cups and small bowls in the 1980s, and over the decades, we've continually refined the technique, advancing it to accommodate larger items and the addition of decorative colour, without compromising on quality or performance.

# Harvest

Rustic Coastal Charm

The Harvest Mediterranean design captures the charm of Southern Europe, taking inspiration from the hand-painted ceramics of the region's coastal countries. Harvest Mediterranean features mix and match patterns, so is perfect for creating an eclectic tabletop look. Hand-finished with the signature Harvest edge band, the rustic Mediterranean design is perfect for mixing with other colours in the Dudson portfolio.

# Evo

Character Established by Tradition

Handcrafted, Evo is supremely practical and whatever your particular service requirements, items can be mixed and matched to suit. Evo has been designed with the appearance of hand-thrown pottery and its homely charm adds a touch of warmth to any tabletop. A replication of shape and aesthetics, Evo is available in four well established glaze colours Azure, Granite, Jet and Pearl. The fully glazed pieces are hand dipped on Vitrified Stoneware and the reactive colours create variation, making each piece individual.

*Naturally rustic...*

Emulating hand thrown pottery, Igneous features a ribbed embossment across a rustic, exposed base and is finished with artisan style glazes. The black glaze has a soft, matte finish and creates a striking contrast against the biscuit base. Igneous Natural is a gloss glaze in a neutral tone that features a subtle speckle.

## USABILITY

Products are ergonomically designed, using shapes that best suit each purpose.

## STYLE

Highly polished mirror finishes enhance the dining experience by adding a touch of elegance to the table-top.

## QUALITY

Sola cutlery offers long lasting shine, dishwasher durability and is fully guaranteed against production and material failures.

## PERFORMANCE

Sola offers the finest quality 18/10 stainless steel. This refers to the percentage of chromium and nickel. 18/10 is better as the addition of nickel offers improved corrosion resistance. Ceramics

### DURABLE & VITRIFIED

Breakages in ceramics are generally related to porosity or how much water a piece can absorb. Water absorption weakens the chemical structure affecting its durability over time. Through the process of vitrification, the particle structure of our ceramic body becomes strong, dense and watertight.

### STACKABLE

The technology used to form our products ensures consistency in size and weight allowing pieces to be stacked back of house using less space and reducing breakages.

### FULLY GLAZED BASE

Although glazing the feet of our ceramics adds complexity it increases functional benefits to the customer. Foot glazing requires 'pin firing'. This prevents scratching to tables and plates when stacked.

### SUPERIOR GLAZE FINISH

Specially formulated for the hospitality industry, our glaze is durable and resistant to scratching and fading.

### ECO GLAZE

Our glazing system is carefully formulated to allow oversprayed glaze to be collected, go through a lengthy cleaning process and then be reused, minimising our impact on the environment.
